Back-to-School Wallet Guide to

PVC-Free School Supplies

Center for Health, Environment & Justice
www.chej.org

August, 2009

K eep the **poison plastic** off your back-to-school shopping list!

The Center for Health, Environment & Justice (CHEJ) has created this handy **Back-to-School Wallet Guide to PVC-Free School Supplies** to empower you to make smarter, healthier shopping choices for a toxic-free future.

Why Shop for PVC-Free School Supplies?

Many children's school supplies (such as lunchboxes, backpacks and binders) are often made out of polyvinyl chloride (PVC or vinyl)—a toxic plastic that is dangerous to our health from production, use, to disposal.

Q uick Tips for Avoiding PVC School Supplies

Here are some quick tips to avoid PVC in common back-to-school products. Look for non-plastic products whenever available. When choosing plastic items, be sure to avoid PVC as well as polycarbonate (PC), polystyrene (PS) and acrylonitrile butadiene styrene (ABS) plastics. Avoid the three-arrow "recycling" symbol with the number 3 and/or the initials PVC — indicating it's made with PVC.

If no symbol is present, call the manufacturer's question/comment line (usually a toll-free 800 number) listed on the package to find out what it's made of.

Quick Tips for Avoiding PVC School Supplies - cont.

Art Supplies

- Avoid PVC in smocks. Avoid modeling clays made of PVC (polymer clays such as Fimo and Sculpey).

Backpacks

- Avoid backpacks with shiny plastic designs as they often contain PVC and may contain lead.

Clothing and Accessories

- Look for PVC-free materials in raincoats, rainboots, prints on clothing, and accessories such as handbags, jewelry and belts.

Lunchboxes and Food-Wrap

- Use cloth lunch bags or metal lunchboxes. Many plastic lunch boxes are made of or lined with PVC and may contain lead.
- Use PVC-free butcher paper, waxed paper, parchment paper, low density polyethylene (LDPE) or cellulose bags for food-wrap.

Notebooks

- Avoid notebooks with metal spirals encased in colored plastic as it usually contains PVC.

Paperclips

- Stick to the plain metal paperclips. Colored paper clips are coated with PVC.

Three-Ring Binders

- Use cardboard, fabric-covered, or polypropylene binders. Most 3-ring binders are made of PVC.
